(b) There is no proposal for privatisation in Railways at present. However, certain off-line activities like Catering have been contracted out. As regards downsizing of staff and abolition of vacant posts, the Railways have been adopting modern technology in various facets of railway working which has resulted in reduced requirement of manpower in certain areas, necessitating surrender of posts and utilising the same to create posts in new/expanding areas. The present critical financial position facing Indian Railways also make it imperative to contain staff and other costs. Thus, a review of manpower is being done continuously, keeping in view the operational requirements. Railways have taken initiatives to rightsize the organisation by controlling fresh intake and the reduction in the strength will be through the normal process of superannuation and attrition only, without affecting the existing workforce. The organised labour is also being consulted in the matter from time to time.
